Neurological Research

A journal of progress in Neurosurgery and Neurosciences

Volume 11 Number 4 December 1989

SUBJECT INDEX

Acid and alkaline phosphatase
cerebral oedema, cathepsin D, lysosomes, enzyme activities; 33
ACNU
chemotherapy, glioma, microspectrofluorometry, DNA; 14
Acquired immune deficiency syndrome
CNS immunodeficiency, malignant lymphomas, transplant, autoimmune disease; 2
Anaesthetics
brain, propofol, intravenous injection, cerebral blood flow velocity; 150
Anastomoses
circle of Willis, EC–IC bypass, computer stimulation, arterial network analysis; 217
spine, nerve root, myelography, lumbar surgery; 130
Aneurysms
intracranial, reruptured, cerebral angiography, barbiturate therapy; 245
microvascular Doppler, transcranial Doppler, cerebral aneurysm, intra-aneurysmal flow pattern; 41
Anoxia
brain, cerebral ischaemia, interstitial brain pH and potassium, tissue *P*CO2; 153
APH
ischaemia, NMDA antagonist, neuron, necrosis; 37
Arterial hypertension
cerebral oedema, blood-brain barrier, cerebral blood flow, systemic blood pressure; 29
Arterial network analysis
circle of Willis, EC–IC bypass, anastomoses, computer simulation; 217
Astrocytoma
intracranial tumours, glioblastoma multiforme, stereotactic surgery, interstitial radiation; 89
Autoimmune disease
CNS immunodeficiency, malignant lymphomas, transplant, acquired immune deficiency syndrome; 2
B-waves
intracranial pressure, transcranial Doppler sonagraphy, cerebral blood flow; 194
Barbiturates
aneurysms, intracranial, reruptured, cerebral angiography; 245
somatosensory evoked responses, central condition time, etomidate, thiopentone; 51
Benign intracranial hypertension
brain, pseudotumour cerebri, CSF outflow, water self diffusion; 160
Blood–brain barrier
brain, oedema, cerebral endothelial, pathomechanism; 67
cerebral oedema, cerebral blood flow, arterial hypertension, systemic blood pressure; 29
Brachial plexus
nervous system, spinal root avulsion, reinnervation, donor nerve; 181
Brain
anaesthetics, propofol, intravenous injection, cerebral blood flow velocity; 150
anoxia, cerebral ischaemia, interstitial brain pH and potassium, tissue *P*CO2; 153
central nervous system, medial thalamus, noxious, non-noxious; 177
cerebral ischaemia, penumbra, neuronal recovery, middle cerebral artery; 205
function, intracranial pressure, cerebral perfusion pressure, cerebral circulation, ultrasonography; 165
infarction, ischaemia, transcranial Doppler, thrombolytic therapy; 49
locus ceruleus lesion, Na^+, K^+-ATPase; 97
neurology, neural network, memory; 233
normal pressure hydrocephalus, shunting, ventricular size, compliance; 136
oedema (resolution), ischaemia, rat; 114
oedema, calcium, head trauma, ischaemia; 169
oedema, cerebral endothelial, blood-brain barrier, pathomechanism; 67
oedema, free radicals, superoxide dismutase, polyethylene glycol; 213
pseudotumour cerebri, benign intracranial hypertension, CSF outlflow, water self diffusion; 160
pulse pressure waves, hydrocephalus, fast Fourier transformation; 197
rCBF, grey matter, white matter, childhood; 173
tumour, red blood cell polyamines, stereotactic radiosurgery, radiotherapy, tumour management; 76
Calcium
brain, oedema, head trauma, ischaemia; 169
Cathepsin D
cerebral oedema, lysosomes, enzyme activities, acid and alkaline phosphatase; 33
Central conduction time
barbiturates, somatosensory evoked responses, etomidate, thiopentone; 51
Central nervous system
brain, medial thalamus, noxious, non-noxious; 177
Cerebral aneurysm
microvascular Doppler, transcranial Doppler, intra-aneurysmal flow pattern; 41
cerebral vasospasm, ischaemia, subarachnoid haemorrhage, TXA2 synthetase inhibitor; 79
Cerebral angiography
aneurysms, intracranial, reruptured, barbiturate therapy; 245
Cerebral blood flow
B-waves, intracranial pressure, transcranial Doppler sonagraphy; 194
brain, anaesthetics, propofol, intravenous injection; 150
cerebral oedema, blood-brain barrier, arterial hypertension, systemic blood pressure; 29
ischaemia, intra-aortic balloon counterpulsation, stroke; 109
subarachnoid haemorrhage, vessel avulsion, intracranial pressure, perfusion pressure; 201
Cerebral blood volume
ischaemia, oxidative metabolism, hypoxia, tissue oxygen tension; 139
Cerebral circulation
intracranial pressure, cerebral perfusion pressure, brain function, ultrasonography; 165
Cerebral endothelial
brain, oedema, blood-brain barrier, pathomechanism; 67
Cerebral ischaemia
brain, anoxia, interstitial brain pH and potassium, tissue *P*CO2; 153
brain, penumbra, neuronal recovery, middle cerebral artery; 205
Cerebral oedema
blood-brain barrier, cerebral blood flow, arterial hypertension, systemic blood pressure; 29
cathepsin D, lysosomes, enzyme activities, acid and alkaline phosphatase; 33
Cerebral perfusion pressure
intracranial pressure, cerebral circulation, brain function, ultrasonography; 165

SUBJECT INDEX

Acid and alkaline phosphatase
cerebral oedema, cathepsin D, lysosomes, enzyme activities; 33
ACNU
chemotherapy, glioma, microspectrofluorometry, DNA; 14
Acquired immune deficiency syndrome
CNS immunodeficiency, malignant lymphomas, transplant, autoimmune disease; 2
Anaesthetics
brain, propofol, intravenous injection, cerebral blood flow velocity; 150
Anastomoses
circle of Willis, EC–IC bypass, computer stimulation, arterial network analysis; 217
spine, nerve root, myelography, lumbar surgery; 130
Aneurysms
intracranial, reruptured, cerebral angiography, barbiturate therapy; 245
microvascular Doppler, transcranial Doppler, cerebral aneurysm, intra-aneurysmal flow pattern; 41
Anoxia
brain, cerebral ischaemia, interstitial brain pH and potassium, tissue *P*CO2; 153
APH
ischaemia, NMDA antagonist, neuron, necrosis; 37
Arterial hypertension
cerebral oedema, blood-brain barrier, cerebral blood flow, systemic blood pressure; 29
Arterial network analysis
circle of Willis, EC–IC bypass, anastomoses, computer simulation; 217
Astrocytoma
intracranial tumours, glioblastoma multiforme, stereotactic surgery, interstitial radiation; 89
Autoimmune disease
CNS immunodeficiency, malignant lymphomas, transplant, acquired immune deficiency syndrome; 2
B-waves
intracranial pressure, transcranial Doppler sonagraphy, cerebral blood flow; 194
Barbiturates
aneurysms, intracranial, reruptured, cerebral angiography; 245
somatosensory evoked responses, central condition time, etomidate, thiopentone; 51
Benign intracranial hypertension
brain, pseudotumour cerebri, CSF outflow, water self diffusion; 160
Blood–brain barrier
brain, oedema, cerebral endothelial, pathomechanism; 67
cerebral oedema, cerebral blood flow, arterial hypertension, systemic blood pressure; 29
Brachial plexus
nervous system, spinal root avulsion, reinnervation, donor nerve; 181
Brain
anaesthetics, propofol, intravenous injection, cerebral blood flow velocity; 150
anoxia, cerebral ischaemia, interstitial brain pH and potassium, tissue *P*CO2; 153
central nervous system, medial thalamus, noxious, non-noxious; 177
cerebral ischaemia, penumbra, neuronal recovery, middle cerebral artery; 205
function, intracranial pressure, cerebral perfusion pressure, cerebral circulation, ultrasonography; 165
infarction, ischaemia, transcranial Doppler, thrombolytic therapy; 49
locus ceruleus lesion, Na^+, K^+-ATPase; 97
neurology, neural network, memory; 233
normal pressure hydrocephalus, shunting, ventricular size, compliance; 136
oedema (resolution), ischaemia, rat; 114
oedema, calcium, head trauma, ischaemia; 169
oedema, cerebral endothelial, blood-brain barrier, pathomechanism; 67
oedema, free radicals, superoxide dismutase, polyethylene glycol; 213
pseudotumour cerebri, benign intracranial hypertension, CSF outlflow, water self diffusion; 160
pulse pressure waves, hydrocephalus, fast Fourier transformation; 197
rCBF, grey matter, white matter, childhood; 173
tumour, red blood cell polyamines, stereotactic radiosurgery, radiotherapy, tumour management; 76
Calcium
brain, oedema, head trauma, ischaemia; 169
Cathepsin D
cerebral oedema, lysosomes, enzyme activities, acid and alkaline phosphatase; 33
Central conduction time
barbiturates, somatosensory evoked responses, etomidate, thiopentone; 51
Central nervous system
brain, medial thalamus, noxious, non-noxious; 177
Cerebral aneurysm
microvascular Doppler, transcranial Doppler, intra-aneurysmal flow pattern; 41
cerebral vasospasm, ischaemia, subarachnoid haemorrhage, TXA2 synthetase inhibitor; 79
Cerebral angiography
aneurysms, intracranial, reruptured, barbiturate therapy; 245
Cerebral blood flow
B-waves, intracranial pressure, transcranial Doppler sonagraphy; 194
brain, anaesthetics, propofol, intravenous injection; 150
cerebral oedema, blood-brain barrier, arterial hypertension, systemic blood pressure; 29
ischaemia, intra-aortic balloon counterpulsation, stroke; 109
subarachnoid haemorrhage, vessel avulsion, intracranial pressure, perfusion pressure; 201
Cerebral blood volume
ischaemia, oxidative metabolism, hypoxia, tissue oxygen tension; 139
Cerebral circulation
intracranial pressure, cerebral perfusion pressure, brain function, ultrasonography; 165
Cerebral endothelial
brain, oedema, blood-brain barrier, pathomechanism; 67
Cerebral ischaemia
brain, anoxia, interstitial brain pH and potassium, tissue *P*CO2; 153
brain, penumbra, neuronal recovery, middle cerebral artery; 205
Cerebral oedema
blood-brain barrier, cerebral blood flow, arterial hypertension, systemic blood pressure; 29
cathepsin D, lysosomes, enzyme activities, acid and alkaline phosphatase; 33
Cerebral perfusion pressure
intracranial pressure, cerebral circulation, brain function, ultrasonography; 165

Cerebral vasospasm
ischaemia, subarachnoid haemorrhage, cerebral aneurysm, TXA2 synthetase inhibitor; 79
Cerebrospinal fluid
enzymes, serum, subarachnoid haemorrhage; 6
Chemotherapy
glioma, microspectrofluorometry, DNA, ACNU; 14
Childhood
brain, rCBF, grey matter, white matter; 173
Cholecystokinin
nervous tissue, organotypic culture, trophic factor; 231
Circle of Willis
EC–IC bypass, anastomoses, computer simulation, arterial network analysis; 217
CNS immunodeficiency
malignant lymphomas, transplant, autoimmune disease, acquired immune deficiency syndrome; 2
Computer simulation
circle of Willis, EC–IC bypass, anastomoses, arterial network analysis; 217
Computerized tomography
spinal cord, filum terminate, diastematomyelia, dermal sinus; 238
Cortical oxygen tension
ischaemia, NADH, oxygen inhalation, induced hypertension; 145
CSF outflow
brain, pseudotumour cerebri, benign intracranial hypertension, water self diffusion; 160
Dermal sinus
spinal cord, filum terminate, diastematomyelia, computerized tomography; 238
Diastematomyelia
spinal cord, filum terminate, dermal sinus, computerized tomography; 238
DNA
chemotherapy, glioma, microspectrofluorometry, ACNU; 14
Donor nerve
nervous system, brachial plexus, spinal root avulsion, reinnervation; 181
EC–IC bypass
circle of Willis, anastomoses, computer simulation, arterial network analysis; 217
Embryogenesis
tumours, germinoma, germ cell tumours, pinealoma; 118
Endothelin
ischaemia, vasospasm, subarachnoid haemorrhage; 101
Enzymes
cerebral oedema, cathepsin D, lysosomes, acid and alkaline phosphatase; 33
serum, cerebrospinal fluid, subarachnoid haemorrhage; 6
Etomidate
barbiturates, somatosensory evoked responses, central conduction time, thiopentone; 51
Fast Fourier transformation
brain, pulse pressure waves, hydrocephalus; 197
Filum terminate
spinal cord, diastematomyelia, dermal sinus, computerized tomography; 238
Free radicals
brain, oedema, superoxide dismutase, polyethylene glycol; 213
Gangliosides
nerves (sciatic), L-carnitine, L-acetylcarnitine, rat; 57
Germ cell tumours
tumours, embryogenesis, germinoma, pinealoma; 118
Germinoma
tumours, embryogenesis, germ cell tumours, pinealoma; 118
Glioblastoma multiforme
intracranial tumours, stereotactic surgery, astrocytoma, interstitial radiation; 89
Glioma
chemotherapy, microspectrofluorometry, DNA, ACNU; 14
Glucose
ischaemia, microwave fixation, rat brain, glycogen; 24
Glycerol
intracranial pressure, serum electrolytes, osmolarity; 249
Glycogen
ischaemia, microwave fixation, rat brain, glucose; 24
Grey matter
brain, rCBF, white matter, childhood; 173
Head trauma
brain, oedema, calcium, ischaemia; 169
Hydrocephalus
brain, pulse pressure waves, fast Fourier transformation; 197
Hypertension
induced, ischaemia, cortical oxygen tension, NADH, oxygen inhalation; 145
neurology, intracranial pressure, plateau waves, medullary vasomotor centre; 186
Hypoxia
ischaemia, oxidative metabolism, tissue oxygen tension, cerebral blood volume; 139
Interstitial brain pH and potassium
brain, anoxia, cerebral ischaemia, tissue PCO_2; 153
Interstitial radiation
intracranial tumours, glioblastoma multiforme, stereotactic surgery, astrocytoma; 89
Intra-aneurysmal flow pattern
aneurysm, microvascular Doppler, transcranial Doppler, cerebral aneurysm; 41
Intra-aortic balloon counterpulsation
ischaemia, cerebral blood flow, stroke; 109
Intracranial
aneurysms, reruptured, cerebral angiography, barbiturate therapy; 245
pressure, B-waves, transcranial Doppler sonagraphy, cerebral blood flow; 194
pressure, cerebral perfusion pressure, cerebral circulation, brain function, ultrasonography; 165
pressure, glycerol, serum electrolytes, osmolarity; 249
pressure, neurology, plateau waves, hypertension, medullary vasomotor centre; 186
pressure, subarachnoid haemorrhage, vessel avulsion, perfusion pressure, cerebral blood flow; 201
tumours, glioblastoma multiforme, stereotactic surgery, astrocytoma, interstitial radiation; 89
Intravenous injection
brain, anaesthetics, propofol, cerebral blood flow velocity; 150
Ischaemia
APH, NMDA antagonist, neuron, necrosis; 37
brain, oedema (resolution), rat; 114
brain, oedema, calcium, head trauma; 169
cerebral vasospasm, subarachnoid haemorrhage, cerebral aneurysm, TXA2 synthetase inhibitor; 79
cortical oxygen tension, NADH, oxygen inhalation, induced hypertension; 145
intra-aortic balloon counterpulsation, cerebral blood flow, stroke; 109
microwave fixation, rat brain, glycogen, glucose; 24
oxidative metabolism, hypoxia, tissue oxygen tension, cerebral blood volume; 139
transcranial Doppler, thrombolytic therapy, brain stem infarction; 49
vasospasm, endothelin, subarachnoid haemorrhage; 101
L-acetylcarnitine
nerves (sciatic), L-carnitine, gangliosides, rat; 57
L-carnitine
nerves (sciatic), L-acetylcarnitine, gangliosides, rat; 57
Locus ceruleus lesion
brain, Na^+, K^+-ATPase; 97
Lumbar surgery
spine, nerve root, anastomoses, myelography; 130
Lysosomes
cerebral odema, cathepsin D, enzyme activities, acid and alkaline phosphatase; 33
Malignant lymphomas
CNS immunodeficiency, transplant, autoimmune disease, acquired immune deficiency syndrome; 2
Medial thalamus
brain, central nervous system, noxious, non-noxious; 177
Medullary vasomotor centre
neurology, intracranial pressure, plateau waves, hypertension; 186
Memory
neurology, neural network, brain; 233
Meningioma
progesterone receptor, oestrogen receptor, tissue culture; 9
Microspectrofluorometry
chemotherapy, glioma, DNA, ACNU; 14
Microvascular Doppler
aneurysm, transcranial Doppler, cerebral aneurysm, intra-aneurysmal flow pattern; 41
Microwave fixation
ischaemia, rat brain, glycogen, glucose; 24
Midbrain
somatosensory evoked potential, raphe nucleus (5-HT), cat; 105

Middle cerebral artery
brain, cerebral ischaemia, penumbra, neuronal recovery; 205
Myelography
spine, nerve root, anastomoses, lumbar surgery; 130
Na^+, K^+-ATPase
brain, locus ceruleus lesion; 97
NADH
ischaemia, cortical oxygen tension, oxygen inhalation, induced hypertension; 145
Necrosis
ischaemia, APH, NMDA antagonist, neuron; 37
Nerve root
spine, anastomoses, myelography, lumbar surgery; 130
Nerves (sciatic)
L-carnitine, L-acetylcarnitine, gangliosides, rat; 57
Nervous system
brachial plexus, spinal root avulsion, reinnervation, donor nerve; 181
Nervous tissue
organotypic culture, cholecystokinin, trophic factor; 231
Neural network
neurology, memory, brain; 233
Neuron
ischaemia, APH, NMDA antagonist, necrosis; 37
Neuronal recovery
brain, cerebal ischaemia, penumbra, middle cerebral artery; 205
NMDA antagonist
ischaemia, APH, neuron, necrosis; 37
Normal pressure hydrocephalus
brain, shunting, ventricular size, compliance; 136
Oedema
brain, calcium, head trauma, ischaemia; 169
brain, cerebral endothelial, blood-brain barrier, pathomechanism; 67
brain, free radicals, superoxide dismutase, polyethylene glycol; 213
resolution, brain, ischaemia, rat; 114
Oestrogen receptor
meningioma, progesterone receptor, tissue culture; 9
Organotypic culture
nervous tissue, cholecystokinin, trophic factor; 231
Osmolarity
intracranial pressure, glycerol, serum electrolytes; 249
Oxidative metabolism
ischaemia, hypoxia, tissue oxygen tension, cerebral blood volume; 139
Oxygen inhalation
ischaemia, cortical oxygen tension, NADH, induced hypertension; 145
Pathomechanism
brain, oedema, cerebral endothelial, blood–brain barrier; 67
Penumbra
brain, cerebral ischaemia, neuronal recovery, middle cerebral artery; 205
Perfusion pressure
subarachnoid haemorrhage, vessel avulsion, intracranial pressure, cerebral blood flow; 201
Pinealoma
tumours, embryogenesis, germinoma, germ cell tumours; 118
Plateau waves
neurology, intracranial pressure, hypertension, medullary vasomotor centre; 186
Polyethylene glycol
brain, oedema, free radicals, superoxide dismutase; 213
Progesterone receptor
meningioma, oestrogen receptor, tissue culture; 9
Propofol
brain, anaesthetics, intravenous injection, cerebral blood flow velocity; 150
Pseudotumour cerebri
brain, benign intracranial hypertension, CSF outflow, water self diffusion; 160
Pulse pressure waves
brain, hydrocephalus, fast Fourier transformation; 197
Radiotherapy
brain tumour, red blood cell polyamines, stereotactic radiosurgery, tumour management; 76
Raphe nucleus (5-HT)
somatosensory evoked potential, midbrain, cat; 105
rCBF
brain, grey matter, white matter, childhood; 173
Red blood cell polyamines
brain tumour, stereotactic radiosurgery, radiotherapy, tumour management; 76
Reinnervation
nervous system, brachial plexus, spinal root avulsion, donor nerve; 181
Serum electrolytes
intracranial pressure, glycerol, osmolarity; 249
Shunting
brain, normal pressure hydrocephalus, ventricular size, compliance; 136
Somatosensory evoked potential
midbrain, raphe nucleus (5-HT), cat; 105
Somatosensory evoked responses
barbiturates, central conduction time, etomidate, thiopentone; 51
Spinal cord
filum terminate, diastematomyelia, dermal sinus, computerized tomography; 238
Spinal root avulsion
nervous system, brachial plexus, reinnervation, donor nerve; 181
Spine
nerve root, anastomoses, myelography, lumbar surgery; 130
Stereotactic radiosurgery
brain tumour, red blood cell polyamines, radiotherapy, tumour management; 76
Stereotactic surgery
intracranial tumours, glioblastoma multiforme, astrocytoma, interstitial radiation; 89
Stroke
ischaemia, intra-aortic balloon counterpulsation, cerebral blood flow; 109
Subarachnoid haemorrhage
Cerebral vasospasm, ischaemia, cerebral aneurysm, TXA2 synthetase inhibitor; 79
enzymes, serum, cerebrospinal fluid; 6
ischaemia, vasospasm, endothelin; 101
vessel avulsion, intracranial pressure, perfusion pressure, cerebral blood flow; 201
Superoxide dismutase
brain, oedema, free radicals, polyethylene glycol; 213
Systemic blood pressure
cerebral oedema, blood-brain barrier, cerebral blood flow, arterial hypertension; 29
Thiopentone
barbiturates, somatosensory evoked responses, central condition on time, etomidate; 51
Thrombolytic therapy
ischaemia, transcranial Doppler, brain stem infarction; 49
Tissue culture
meningioma, progesterone receptor, oestrogen receptor; 9
Tissue oxygen tension
ischaemia, oxidative metabolism, hypoxia, cerebral blood volume; 139
Tissue *P*CO2
brain, anoxia, cerebral ischaemia, interstitial brain pH and potassium; 153
Transcranial Doppler
aneurysm, microvascular Doppler, cerebral aneurysm, intra-aneurysmal flow pattern; 41
ischaemia, thrombolytic therapy, brain stem infarction; 49
sonagraphy, B-waves, intracranial pressure, cerebral blood flow; 194
Transplant
CNS immunodeficiency, malignant lymphomas, autoimmune disease, acquired immune deficiency syndrome; 2
Trophic factor
nervous tissue, organotypic culture, cholecystokinin; 231
Tumours
embryogenesis, germinoma, germ cell tumours, pinealoma; 118
managements, brain tumour, red blood cell polyamines, stereotactic radiosurgery, radiotherapy; 76
TXA2 synthetase inhibitor
cerebral vasospasm, ischaemia, subarachnoid haemorrhage, cerebral aneurysm; 79
Ultrasonography
intracranial pressure, cerebral perfusion pressure, cerebral circulation, brain function; 165
Vasospasm
ischaemia, endothelin, subarachnoid haemorrhage; 101
Ventricular size
brain, normal pressure hydrocephalus, shunting, compliance; 136
Vessel avulsion
subarachnoid haemorrhage, intracranial pressure, perfusion pressure, cerebral blood flow; 201
Water self diffusion
brain, pseudotumour cerebri, benign intracranial hypertension, CSF outflow; 160
White matter
brain, rCBF, grey matter, childhood; 173
